NONRECURRING CHARGES- ALL EXCHANGES

Application of Nonrecurring (Installation) Charges

1. **SERVICE ORDER CHARGES** – The Service Order Charge applies for the operations required to generate and process the service order. The charge applies on a per request basis rather than per item. The charge is not applicable to the removal of services from the customer account. There are three types of Service Order Charges:
 - A. New Service - The New Service Order Charge applies for the operations required to generate and process a service order to establish a new or separate service account with the telephone company. This charge also applies to outside moves and restoration of disconnected service due to non-payment status over 60 days.
 - B. Subsequent Additions and Changes - The Subsequent Additions and Changes Charge applies for the operations required to generate and process a service order to add or change the services provided on an existing customer account. The charge applies to, but is not limited to, orders for change of name, change of address, and addition of call features. This charge also replaces the service order charges previously noted for change of number and Vacation/Suspension service.
 - C. Reconnect (Non-Pay within 60 days) - The Reconnect Charge applies for the operations required to generate and process a service order to restore service to a customer's line when it has been suspended for non-payment. If the service has been suspended for over 60 days, a New Service Order Charge will apply rather than the Reconnect Charge to restore the service.
2. **CENTRAL OFFICE CHARGE** - The Central Office Charge applies for the operations in the central office required to perform the work necessary to complete a service order. The charge is applicable per service order per line. The charge is not applicable to name and address changes or to remove services from the customer's account.

3. **VISIT TO PREMISE CHARGE** - The Visit To Premise Charge applies for the operations required to perform work at the customer premise. The charge is applicable for new installations when a telephone company technician completes work at the customer premise, and for repair visits when the service problem is found not to be in the telephone company-owned facilities. The charge applies per visit.
4. **RETURN OF BAD CHECK** - The Return of Bad Check Charge applies to each check returned to the telephone company office as not paid by the customer's financial institution. It applies per returned check.

DUAL PARTY RELAY SERVICES SURCHARGE

1. DESCRIPTION

Pursuant to the requirements of House Enrolled Act 1608, all customers billings on and after June 1, 1991 shall reflect an additional charge to fund the Indiana Telephone Relay Access Corporation for the Hearing and Speech Impaired (InTRAC). The purpose of InTRAC is to deliver a statewide dual party relay service for Indiana’s deaf and speech impaired citizens that will provide access to telephone services that are functionally equivalent to those provided to individuals not having hearing or speech impairments. The relay will be the link between a hearing or speech impaired person using a telecommunications device for the deaf and a non-impaired person using a telephone.

2. CONDITIONS

This surcharge will apply to all access lines excluding WATS, Public Coin, and Company Official Lines.

This charge is subject to change pursuant to the procedure set forth by House Enrolled Act 1608.

END USER ACCESS SERVICE

The Telephone Company will provide End User Access Service (End User Access) to end users who obtain local exchange service from the Telephone Company under its general and/or local exchange tariffs.

1. General Description

End User Access provides the ability for use of the End user Common Line (EUCL), ie; the loop, and the portion of the switch required to allow end users access to the public switched network. This allows end users access to services such as emergency services, operator services, directory assistance and interexchange service. Access to interexchange service is the ability of the end user to interconnect with interexchange and toll services and is not subject to carrier access charges. (T)

2. Limitations

2.1. Exclusions

Telephone number, detail billing, directory listings and intercept arrangements are not included with End User Access. (T)

(D)
